

Happenings of a Day in Utah

OGDEN

TRIBUNE BRANCH OFFICE,
266 Washington Ave., Telephone 111

HEAVY RAINSTORM AND VIVID LIGHTNING FLASHES

Special to The Tribune.
OGDEN, May 5.—The storm which passed over Ogden last night was an unusually severe one. Rain fell in torrents accompanied by a severe lightning and thunderstorm. A ball of lightning struck a tree on Twenty-fifth street and split it wide open. Postman Hadlock had a rather narrow escape from the same bolt. Hadlock was riding along the sidewalk on his bicycle when the lightning struck the tree about half a block ahead of him. The lights were extinguished and Hadlock was dazed by the shock to such an extent that he ran into a fence, badly lacerating his hand. The storm also caused considerable damage at the power house of the Utah Light and Power company. Two transformers were burned out, causing the lights to go out for about an hour, but a new dynamo was soon pressed into service and the lights were out but a short time.

The bond election for the voting of sewer bonds in district No. 9 will be held on May 12. It is proposed to issue \$50,000 bonds for the construction of sewers in the above district.

A marriage license has been issued to Cornelius J. Dee and Miss Annie J. Hendrix, both of Ogden.

Andrew Wallace, through his attorney, A. W. Agee, has brought suit against the Southern Pacific company for \$25,000 damages for the loss of a log. Wallace alleges that he was run over by an engine in the Ogden yards through the negligence of the defendant company.

Hans C. Christensen and Gaston Benedit were before Judge Rolapp today on application for citizenship. Christensen was admitted, but the examination of Benedit caused much amusement for the spectators and resulted in the refusal of the court to admit him. When Judge Rolapp asked him if he believed in polygamy he answered "What," said the court, "you do?" In the meantime Gaston's friends prompted him and he hurriedly answered, "No, no." His honor refused the application.

L. E. Dunning was today fined \$100 by Judge Rolapp for grand larceny and embezzlement. Dunning pleaded guilty to the charge and upon a plea for leniency made by his attorney, he was let off with a fine of \$100.

Mike Riley was arraigned before Judge Rolapp today and pleaded guilty to the charge of housebreaking. He was sentenced to sixty days in jail.

C. H. Bernard was sentenced to ninety days in jail by Judge Howell today for stealing forty-one chickens from Louis Heffner.

Today was law and motion day in the District court. The following orders were made:

The case of Glasmann vs. Condon was ordered dismissed.

New Hampshire Fire Insurance company vs. Oregon Short Line, set for trial June 2.

Conroy vs. Reed, set for trial May 9.

In the matter of the removal of William Glasmann from the office of Mayor of Ogden City, was ordered dismissed.

Board of Education vs. Stephens et al., continued.

The following motions were heard: Charles W. Peck vs. Ogden Union Railway and Depot company, demurrer overruled, twenty days to answer.

T. J. Kennedy vs. U. P. R. R. company, demurrer argued and taken under advisement.

Lon V. Stegner vs. O. S. L. R. R. company, demurrer argued and taken under advisement.

pany, demurrer argued and taken under advisement.

Anna M. Nelson vs. D. M. Smith et al., demurrer argued and taken under advisement.

Catherine M. Blair vs. James S. Blair, notice of motion for an order requiring defendant to pay money into court. Catherine Erickson, etc., vs. Dina F. Rich et al., demurrer continued.

Joseph W. West vs. D. S. Tracy et al., demurrer overruled, twenty days to answer.

In the divorce case of Alice Harris vs. Leander Harris, the defendant's motion to modify the decree was granted and it was ordered modified, giving the custody of the children to the father.

Jean Robellet, aged 23, and Pauline Potter, 25, both of Ogden, were yesterday granted a license to wed.

The Utah Independent Telephone company is rapidly pushing the work of laying its conduits on Twenty-fourth street. The work is under the supervision of William Blomquist of Salt Lake City, and he has thirty men employed and is rushing things as fast as possible. A trench extending one entire block has already been opened and the work of laying the pipes began this morning. Vitrified clay pipe is being laid and thirty-six of these pipes, with a capacity of 24,000 wires, extends from the telephone building to the trench. Twenty-six of these run to Washington avenue, twelve of them verging north and twelve south on Washington, four of them going up the hill. Along Grant avenue eight of them will be laid, four up Twenty-fifth street and eight extending south to Twenty-sixth. Eight will be laid for Twenty-third to Twenty-second and the whole work is to be completed in six weeks. The pipes are laid eight feet down on a base of four inches of concrete.

Olive Lowney was arrested today in company with a Chinaman named Jim in the Broom restaurant. The arrest was made by Officer Bott and they are charged with miscegenation. At the police station they were allowed to go upon the understanding that they would immediately leave town.

A. C. McKenzie, a well known Denver crack shot, is in town hobnobbing with members of the Ogden Gun club.

ACTIVE MINING SEASON OPENING UP AT MODENA

Special to The Tribune.
MODENA, Utah, May 5.—Asa B. Kennon, secretary and treasurer of the Newport-Nevada Mining company, arrived from Newport, R. I., yesterday en route to Deer Lodge, Nev., where he will look into the operations and developments of the Homestake mine, owned by the company.

Reports received here today from Pioche not only corroborate the finding of a great chute of lead-silver ore in the tunnel of the Yuba East, but go to show that the first reports did not begin to properly describe the importance of the strike. The proven vein for two hundred feet in length has widened from eighteen inches to two feet in width, showing values of more than 200 ounces in silver at one end as far as exploration has progressed and up to 400 ounces at the other end, where the initial strike was made. Every day is bringing forth news of great strikes at Pioche and the revitalization of the old bonanza days is not an iridescent dream and this camp is surely destined to mark another epoch in the history of Western mining.

H. D. Trenam, the well known mining man of Salt Lake City, passed through here yesterday en route to Steteville, where it is understood that he is about to cast the anchor of fortune.

Hans Wahlberg of Murray, Utah, passed through here yesterday en route to Bullion canyon, thirty miles east of Modena, to inquire into the authenticity of reported copper strikes in that vicinity.

The latest development at Fay, Nev., would indicate that that district is soon to be the scene of active mining operations. Word was brought here yesterday by several experienced mining men who had just come from that camp, and ore exhibited in proof of their assertions which goes to show that the true richness of that camp has never reached the public and when the facts are disclosed there is every reason to believe that a stampede of prospectors and investors not unlike that which attended the first finds at Tonopah, will ensue. One running several hundred dollars gold per ton is getting to be a common find in several of the properties there.

Matters are shaping up for an active season of mining in the immediate vicinity of Modena. Work on the Desert Wonder, Monitor, Insurance and Fidelity groups of mining claims will be started in a few weeks almost simultaneously.

Arrangements are under way for a shipment of fire clay from the large deposit near here to Los Angeles, with a view to making a thorough test as to its fitness for the manufacture of sewer pipe.

FAREWELL RECEPTION BEFORE EUROPEAN TRIP

Special to The Tribune.
EUREKA, May 5.—A large delegation of Eurekaans went to Mammoth last night to attend the farewell reception given in honor of Antone Hassell, who will leave in about ten days upon a visit to Europe. There was dancing and a nice lunch for all at the hall.

Mrs. Jackson McChrystal and children and Mrs. Phil Clark left Wednesday for California, where they will visit for several weeks. They expect to return by way of Seattle, Wash.

Miss Nellie Shea has gone to Notre Dame, Indiana, to study music. Her mother accompanied her as far as Ogden.

Prof. A. C. Carlson has been re-engaged as principal of the public schools for another year. There will be but little change in the personnel of the corps of teachers.

The infant son of Mr. and Mrs. David N. Larsen died at Robinson yesterday of spinal meningitis. The remains were shipped to Spanish Fork today for burial by Undertaker A. N. Wallace.

GET NINETY DAYS FOR ATTEMPTED EXTORTION

Special to The Tribune.
LEHI, May 5.—Albert Snyder and Harry Lee of American Fork were yesterday tried in Judge Beck's court on the charge of blackmail and extortion. Snyder entered a plea of guilty and Lee was found guilty and the Justice sentenced each to pay a fine of \$50 or be imprisoned in the county jail for ninety days. It is probable that the latter penalty will be their fate.

From the evidence it appears that Snyder told Lee that Holliman, who was boarding at the former's home, had confessed to burning the Lehi creamery at the instigation of J. E. Cotter. That as proof of this Snyder was aware of certain letters pertaining to the transaction that had passed between Holliman and Jennings, another accomplice. At Snyder's dictation Lee wrote a letter containing the substance of a letter which Jennings was supposed to have written and with this forgery the twain made several calls on J. E. Cotter, a Lehi merchant, and by threats, etc., tried to extort \$100 from him, for which they agreed to keep quiet concerning the creamery fire.

Cotter finally made a date with the two men at his store and had two detectives concealed, who heard the men make their threats of making trouble for Cotter if the money was not forthcoming. Cotter passed the letter from the blackmailers to the two detectives, City Marshal Butt and D. J. Thurman.

The convicted men are both married and long time residents of American Fork.

J. E. Cotter was, with Alex Jennings, tried for burning the creamery. Cotter was discharged at the preliminary hearing and Jennings in the District court.

The big pumps at the head of Jordan river are now sending 400 cubic feet of water per second down the Jordan river to the Salt Lake county farmers. W. A. Knight and D. M. Griffin have charge of the pumps.

The lake is considerably higher this year than when the pumps began last season, which is a striking proof of the value of the pumps. The surface of the lake was lowered about three feet by reason of the double extraction of water, but the increased outflow failed to reduce the surface below this point during the successive years.

To obviate the wholesale slaughter of fish caused by the pumps in past seasons the water companies have placed in the river revolving screens which catch the fish. The Fish and Game Commissioner, Sharp and County Game Warden Slade visited the pumps Saturday to see that the screens fulfilled the requirements of law.

County Game Warden Slade this week placed 60,000 young brook trout in American Fork canyon creek.

Mrs. Hannah Weber was buried Monday at the funeral services, which were held in the tabernacle, addresses were made by Mrs. Rebecca Standing, William Southwick, William Gurney, John Austin, President A. J. Evans and Bishop Gardner.

The members of the four local Relief societies walked with the hearse to the tabernacle. The deceased's grandsons acted as pallbearers.

POLITICS IN PROVO.

Special Correspondence The Tribune.
PROVO, May 3.—Quite a stir was made by the City Council last evening when that body elected W. E. Bott, Councilman from the Third ward to succeed Jesse Harding, resigned. Mr. Harding has, it seems, decided that City Council life is not as congenial as it might be, and with a Democratic President and a tie in the body, decided it was better for him to be on the farm, so moved out there and resigned.

Mr. Harding was elected a Republican from the Third ward, and it was given out cold by the organ that Hon. Eph Homer would be elected to fill the vacancy. In fact, it was stated in such a way that it was many thought it was fixed, and so Mr. Homer was to be the next Councilman from that ward.

But the Democrats were not at all slow to grasp the situation, and remembering that the last Council, which was Republican, when a vacancy occurred through the death of Councilor Alex. Williams, a Democrat from the Second ward, took advantage of the situation and appointed a Republican in the person of Councilor Ward, thought it was their time to play politics, and so proceeded to elect Mr. Bott, a Democrat, from the Republican Third ward. The Republicans reconstituted, but to no avail.

Councilor Miller created a good deal of amusement by stating that it was not the members of the Council, but the acts of the former one, over whose acts this Council had no control. A. L. Booth evidently believed that the Supreme court had decided that they could not do this, but that it was the duty of the Council if they wished to make a selection legal to elect Homer. Somehow the Democrats failed to see the point, and elected Mr. Bott; and now it is said that the organ advises a contest, which makes the good people "jess laff" at the inconsistency of the organ. Two years ago it was right, now it is all wrong.

Mr. Bott, it is said, had experience in Council matters in Nebraska before he came to Provo, and is an enterprising young man. The only thing that can be said about him is that he is a Democrat.

We now have in Republican Provo a Democratic President, a Democratic Councilman and a Democratic Mayor; the Council being six Democrats and four Republicans; and still those in control say they are "playing good politics."

PIUTE COUNTY INDORSES CHIDESTER AND BEEBE

Special to The Tribune.
JUNCTION, Utah, May 5.—The Piute county convention to select delegates to the Republican Judicial convention of the Sixth Judicial district to be held at Marysville on May 16, met here today and elected as delegates Alex Davis of Circleville, Charles Morrill of Junction, Dr. P. J. Strider and L. D. Sprague of Kimberly and William E. White and J. J. Boler of Marysville.

Piute county is in favor of John F. Chidester of Panguitch for District Judge and Gilbert E. Beebe of Junction for District Attorney.

PARK CITY

TRIBUNE BUREAU,
424 N. Main Street Telephone 75

TWO MEN LOSE TOES IN ORDINARY ACCIDENTS

Special to The Tribune.
PARK CITY, May 5.—Marshal Pearson caught his foot in the heavy machinery of a silm table at the Keith-Kearns on Wednesday, thereby mashing several toes. William Paulson met with the same result by dropping a heavy weight upon his foot on Thursday.

William Carney, a 13-year-old boy, burned his face by an explosion of powder which a playmate ignited.

General Manager Buckingham of the Oregon Short Line, General Superintendent H. V. Platt of the Union Pacific and party visited this city yesterday, upon a tour of inspection, and to consider the advisability of putting in heavier rails between here and Echo, and upon the high line running to the Ontario mill. This will greatly facilitate transportation of ore and permit heavier engines upon the road.

The City Council, in regular session last night, ordered paid the judgment awarded to Kate Johnson, amounting, with interest and costs, to \$184.72. Accounts against the city to the amount of \$1965.28 were awarded.

CLAYTON FOUND GUILTY OF EMBEZZLING AT LOGAN

Special to The Tribune.
LOGAN, May 5.—"We, the jury find the defendant, Amasa M. Clayton, guilty of the crime of embezzlement, as charged in the information, and find the amount of money to be so embezzled to be the sum of \$67, with recommendation to leniency of the court."

The verdict was reached without a struggle, twelve hours of time being required to get together. The first ballot resulted in three for leniency and five for conviction, and it was the recommendation of mercy that got them together. The verdict was rendered at 11 o'clock last evening and the jury discharged.

Counsel for Amasa M. Clayton appeared before Judge Hart and made a motion to cut out the name of Clayton from the indictment. The judge had previously set May 5 at 10 a. m. for sentence.

The County Commissioners were in session yesterday and passed a resolution authorizing the Clerk to ask the chairman of the political parties to submit names for registration.

Drs. Budge and Caldwell appeared before the board and represented that, in their private hospital and had since decided to discontinue and unite with citizens and re-organize their college, they desired to know what the county would do by way of assistance. The matter was taken under advisement.

Joe Richter was appointed deputy treasurer by Treasurer Parkinson, which was confirmed.

A resolution was passed authorizing the Clerk to notify the Ogden power company and the Utah light and power company of their light connection and order the city lights put on.

A directory for the county was authorized.

RAWLINS VOTES TO HAVE HIGH SCHOOL TEACHER

Special to The Tribune.
RAWLINS, Wyo., May 5.—The largest school meeting ever held in Rawlins was that of last night, which voted \$50 additional to the teachers' fund, to be used in employing another high school teacher, giving three instructors instead of two as heretofore. The superintendent was also authorized to fill the vacant position of teachers for next year to receive \$100 and \$85, respectively, both of which positions were filled by the board.

The total sum voted for the coming year was \$750, amounting \$10,709 for the year just closing.

All of the Finnish claims against the Union Pacific Coal company, occasioned by the explosion at the Hanna mine June 30 of last year, have been settled. There were ninety Finnish claims, and the total sum of claims will aggregate more than \$75,000.

The strike situation among the sheep-shearers has been changed considerably during the last few days. The shearers went out at the Cow Creek pens, but were only off duty a few hours, when they went back to work at the terms named by them. These and the Medicine Bow pens are now paying the scale.

On the Snake River, the association has succeeded in shipping in more shearers than they cared to use, and every pen in the county is working full-barned. Both sides have scored points in this respect and it seems that the season will close in about thirty days.

Mr. Miller, who was sent as a delegate to wait upon the Cow Creek shearers and was refused the privilege of riding to town on the stage, walked the distance of sixty miles.

BOX ELDER SCHOOL FUNDS HAVE BEEN APPORTIONED

Special to The Tribune.
BRIGHAM, Utah, May 5.—Deputy County Superintendent of Schools Angus Vance has apportioned \$241.50 school funds among the twenty-five districts of this county. \$229.92 was received from the State district school fund and \$115.58 from school land interest and rental fund.

The Young Men's Republican club will meet at the Central school Friday night.

Two patients at the Rich hospital this week undergoing treatment for "sheepherders' disease." This ailment has only recently been known to scientists.

THREE THOUSAND SHEEP JUST SHEARED AT MODENA

Special to The Tribune.
MODENA, Utah, May 5.—General Manager R. E. Wells, Superintendent W. H. Henderson, Division Engineer R. K. Brown and a number of guests passed through here yesterday on a special train for the terminus of the San Pedro.

John Robinson finished shearing 2000 sheep here yesterday. Shearing is somewhat delayed by the scarcity of shearers, as well as the inclemency of the weather.

A sheepman tied his horse to a San Pedro telegraph pole. The horse subsequently became fractious and endeavored to loosen himself, in which effort he was successful by pulling down the pole. He became entangled in the wires and a second pole was brought to the ground. A witness to the accident attempted to disentangle the animal and came near being seriously injured. The frantic horse struck at him with his forefeet and inflicted an ugly wound on his head. The injured man, Con Brickerstaff, had a miraculous escape.

SIX FINE HORSES NOW STABLED AT RICHFIELD

Special to The Tribune.
RICHFIELD, May 5.—Six of the finest horses ever brought to Utah are stabled in Richfield. They came from Truman's Pioneer Stud farm at Bushnell, Ill. W. L. Merryfield of the Bushnell farm is here with the stallions.

The largest horse of the six is Vigilant, a sorrel Suffolk, weighing upward of 2200 pounds. There are three magnificent specimens of Percheron horseflesh, all boasting gilt-edged pedigrees, and two of them imported. Their names are Arctic, Mignon and Chester Lad. Two of them are imported English shires, Malloy and Kline's Salem. The latter, a magnificent two-year-old, has already been sold, the purchaser being Peter Nelson, the Richfield liveryman. Andrew Paulson, Peter Paulson and Joseph Paulson.

Change of Mine Superintendents.

Special to The Tribune.
COALVILLE, May 5.—Superintendent W. L. Hanson has been succeeded as superintendent of the Grass Creek coal mine and will be succeeded by J. Adamson. Mr. Hanson has been superintendent of the mine for about six years and has been efficient in that capacity. Mr. Adamson will take charge about May 15.

C. M. Croft, who has been teaching here for two years, has leased the Morgan hotel and will leave Sunday to take charge of the same.

General Manager Buckingham and party of prominent railroad officials went over the branch today on a tour of inspection.

WERE MARRIED IN MID-OCEAN

Game of Cards Resulted in a Secret Wedding of Mate to San Franciscan.

NEW YORK, May 5—A few days before the wreck of the Pacific Mail steamer City of Colon, which occurred off the coast of San Salvador in April, First Mate J. H. Wilderson and Mrs. Elfrida Vera Erna Sigrid Schmid of San Francisco were secretly married. They had played a game of cards, it having been agreed that if the mate won his partner would consent to marry him.

The mate lost, and the next day Mrs. Schmid told him how sorry she was that she did not win.

A ceremony followed, Bishop S. V. Dilley of God's Christian church of the Barbadoes islands being on board the steamer and consenting to perform the service. It was rehearsed on the deck in the presence of Storekeeper Stevens and Miss Helen Olafson of New York, and the marriage solemnized afterward in the saloon, after most every one had gone to bed.

The captain protested when he heard of it the following morning, but yielded when the bishop showed his authority.

EXCURSION RATES

Via Oregon Short Line.

St. Louis and return \$42.50
